Certificates

Flutter Development Bootcamp with Dart 

GWOC Certificates 

30 Days of Google Cloud 

Projects

Student Management System, JavaFX GUI Based

- This project is coded entirely in Java Language and is a student management system that is connected to SQL Database in the backend.
- The project consists of both Admin and Student menus.
- The entire project code and UI were coded and designed by me during my 3rd Semester.

Amazon Clone, MEAN Stack

- I tried coding an amazon clone during my 3rd Semester using MEAN Stack just to get introduced to how do we render components in Angular.
- This project was made by me for my college subject "Web Technologies".

To - Do List Website, NodeJS, ExpressJS, EJS, HTML, Css, Javascript & MongoDB

- This is a website that was coded by me while exploring web development.
- This website has two different menus, in both of these menus, basic thing is that you can add tasks to get them done. But the menus are different for regular and work tasks.

Weather App, Flutter, Dart, Weather API [↗](#)

- This application can be used to view the weather of your current city and any other city just by searching in the search box.
- This app is coded by me and it uses OpenWeatherMap API.

Note-:

Many of my other projects which I have worked on or I am currently working on can be seen on my Github [↗](#) Profile.

Awards

19/09/2021

Top 10 Teams in Case-O-Heist, Model Club, BIT Sindri

- We presented an application named **LANGUAGEOCITY** [↗](#) which was coded in Flutter Framework.
- Using this application any user can learn his/her desired language. (This was just a prototype of our idea which had limited languages.)
- In the Hack over 250+ teams participated from all over India.

24/10/2021

Winner at Hack This Fall for SAWO LABS Track, Hack This Fall

- I and my team built a phone application using the Flutter framework and the project/app was named **EVENTOUR** [↗](#).
- The project basically was an Event Management System in which the user can come and book an event in 5 simple steps.
- The Hack had participation of 4500+ participants worldwide.
